35 Series Frame

35 Series Frame

Frame Features

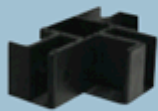

Overview

Our 35 Series frame is 100% Aluminium providing great strength whilst still using a simple to use pull pin connector design and our larger reinforced cross pieces. This frame is our most popular option for many different intended uses.

Quick Benefits/Features

- Aluminium – No chances of rust
- Lightweight – 3x3m only weighs 24kg
- Suited to a large variety of uses
- Durable nylon connectors (With 5 year breakage guarantee)
- Uprate 35x35mm legs with metal feet
- Thicker internally reinforced cross pieces

Metal Foot Plates

The metal foot plates used in this 35 series add stability to the marquee by providing a stronger anchor point to the ground when pegged down.

- Metal foot instead of nylon foot
- Increased durability

PVC Carry Bag Included

Included with your frame you will get a carry bag to put your marquee in.

- Double layer polyester/PVC bag
- Large enough for frame, top and walls

2 Year Warranty

Included with the marquee is a great 2 year warranty on all items for material defects and manufacturing faults.

- Peace of mind
- An increased warranty length over the 30 series

Available Sizes

The 35 series is available our three most popular sizes

Dimensions	Weight
3m x 3m	20kg
3m x 4.5m	25kg
3m x 6m	35kg

Weights include the frame, top and three walls each marquee comes with.

Other sizes are available including 2.4m x 2.4m, 4m x 4m and 4m x 8m.

What to Consider

We see that not one frame is suited to everyone, rather depending on application, you should select one frame or another. As such, we are happy to discuss both the pros and cons of each frame series.

Pros

- Incredible strength without affecting price
- Can be put up by one person easily

Cons

- Not ideally suited for strong wind conditions (beaches etc)
- May be overkill for you intended use (sheltered locations)
